

MADE IN ITALY

e-Connect

Web platform
for your security

international@elmospa.com | www.elmospa.com

Manage your security system anytime and everywhere

EL.MO. took advantage of its **40 years experience** in security solutions and created **e-Connect**, the innovative web platform for the **real time management** of your intrusion detection system.

With e-Connect, EL.MO. meets the growing needs for a **easy-to-use** solution to **control and manage** alarm systems, **always and everywhere**.

You can monitor system status, receive notifications and enable or disable alarm devices directly from your **smartphone, tablet or pc**, thanks to the **user-friendly interface and intuitive icons**.

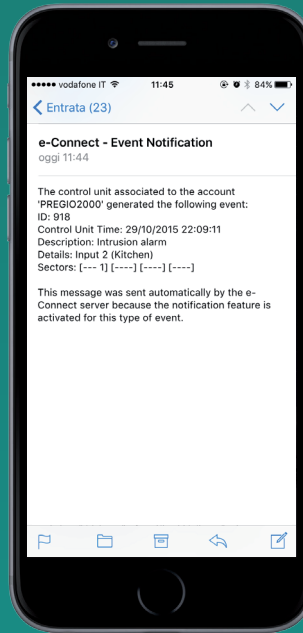

Online preview

Control the status of your system:
power supply, battery, alarms.

Real time notifications

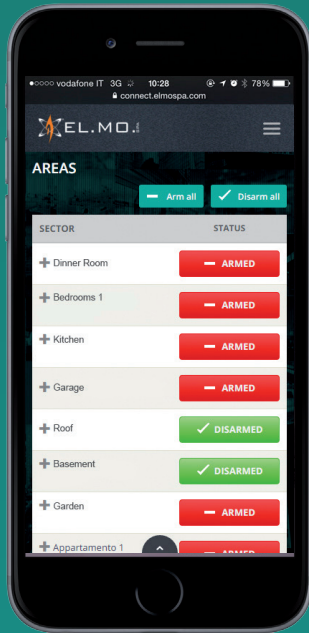

Receive real time notifications
for each event.

Graphic Maps

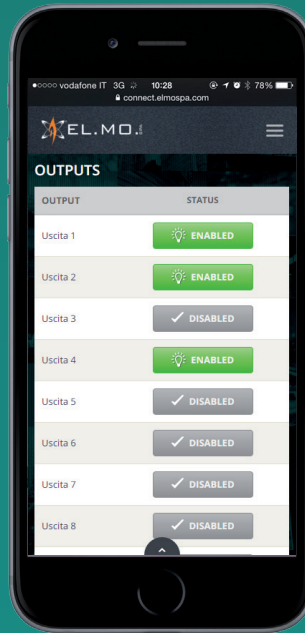

Enable or disable devices directly
touching icons on the map.

Intuitive icons

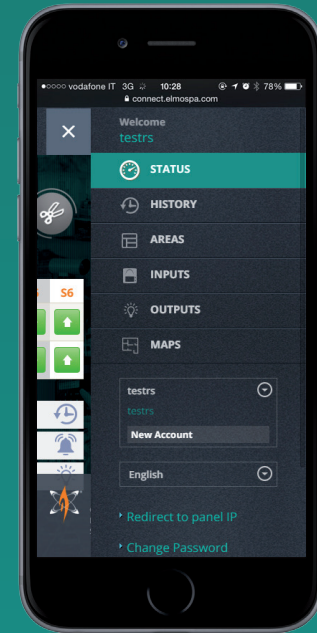

Enable and disable different areas of your home.

Home Automation

Control lighting, heating, irrigation.

All-In-One

Manage more systems with just one account (for example both primary residence and vacation house).

Easy to use

Thanks to the **Web Responsive design**, interfaces is optimized for each used device. By accessing to e-Connect **from your PC, tablet and smartphone**, you will be amazed by the dynamic and intuitive user experience.

Security of the System

The use of **SSL communication protocols**, combined with certificates issued by a world-famous **certification authority**, provides a safety profile at the same level of the solutions adopted by the activities of **remote banking**.
